Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not, alone or in combination, teach or disclose "said switch circuit comprises first and second memory elements, said first phase of said signal given from the outside of said switch circuit, the output voltage of the output terminal of said magnetic field element is stored in said first memory element and the voltage stored in said second memory element is given to said amplifier and, in said second phase, the voltage stored in said first memory element is given to said amplifier and the voltage of the output terminal of said magnetic field element is stored in said second memory element"; "a switch of which one end is connected to the other end of said third memory element and which carries out opening and closing operations by means of said signal which comprises the first and the second phases given from the outside of said switch, wherein said switch closes in said first phase so that said third memory element stores an output voltage of said amplifier and said switch opens in said second phase so that a sum of said voltage stored in said third memory element and an output voltage of said amplifier is outputted to said signal output terminal (claim 1). "Storing said signal in a first memory element and inputting voltage stored in a second memory element to an amplifier in the first signal period; (c) outputting the signal according to the applied magnetic field strength through said magnetic field element in a second signal period, wherein polarities of the signals according to said applied magnetic field strength in the first signal period and the second signal period are mutually opposite (claim 7)."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
